To: Principals

From: Michael E. Hirsch, Ed.S., Director of Special Services

Re: Cleaning

As we are experiencing a rise in cases of the flu throughout the county and the region, it is imperative that we keep our buildings clean. Even though our custodial staff is doing a great job, there is more work we can do. The custodial staff will be cleaning the entire building as usual (using the CDC protocol to prevent disease) and will clean bathrooms, common areas such as locker rooms, cafeterias, gymnasiums, and workrooms multiple times.

As the health and welfare of our students and staff is of the utmost importance and there are only so many hours in the day, we are asking that all staff pitch in and take an "all hands on deck" attitude as we get through this flu season.

Our maintenance department will provide cleaning supplies and disinfectant wipes to each of our teachers and assistants who wish to assist in cleaning their classrooms.

Thank you for all you do,

Michael E. Hirsch, Ed.S., Director of Special Services
